2001 Junior Honda Southeastern Regional Champion (Quarter midgets)

Amanda Ferguson

Biography

Amanda started life like most other little girls. She played with dolls, wore dresses, took ballet lessons, and learned gymnastics. However, having an avid NASCAR fan for her father, Amanda grew up watching races with her dad on Sunday afternoons. The dolls were soon traded in for Matchbox race cars and her interest in racing was born. Then, at six years old she went to watch her first quarter midget race and was hooked. By the fall of 2000, Amanda was racing her first quarter midget race car. With an unrelenting determination to win, she won her first regional championship in 2001 at the age of 8 years old. She continued on to win an additional 6 championships in the following 5 years. After an exciting 7 years of racing quarter midgets, Amanda moved on to race mini sprints in 2007. At the age of 13, she was the youngest female to ever race in the Florida Mini Sprint Association. In 2008, Amanda started racing a 360 sprint car and continued racing her mini sprint when the schedules didn't conflict. She managed to pick up her first win in a sprint car at Auburndale Speedway running with a wing on asphalt. The 2009 racing season was an exciting one for Amanda. She continued racing on dirt with a wing and on asphalt with and without a wing. She won Rookie of the Year with the Checkered Flag Sprint Series. She also became the youngest female to win a wingless 360 sprint car race on asphalt. This year, Amanda will be running a full season with the Checkered Flag Sprint Series (asphalt without a wing) and will run races with the Top Gun Sprint Series (dirt with a wing) and the United Sprint Car Association as her schedule allows. She will also be participating in the Race101 program in Denver, NC.

Amanda Ferguson

Harold Matthews, owner of Atlantic Powder Coating, and Amanda at New Smyrna Speedway.

Keith Butler, co-owner KJ Motorsports, and Amanda at Charlotte County Motorsports Park, Punta Gorda, FL.

Jennifer Butler, owner KJ Motorsports, at New Smyrna Speedway

Marketing and Promotional Experience:

I have represented Eagle Jet International, Atlantic Powder Coating, Sander Engineering and Coleman Products. My car and race suit carry the company logo for each of these businesses and I am also available for personal appearances at promotional events. In addition, I hand out promotional materials for each company.

Team Experience:

I have driven for one team, KJ Motorsports. I work closely with the owner and team crew chief when setting up my car or making adjustments.

"We had seen Amanda at the track and seen the potential that she has. We then decided to assemble a 2nd car for her in our team. This would give her a more competitive car and she would have the ability to learn and progress in her career. Over the past 2 years, Amanda has been able to improve her finishes and even score her 1st feature win for KJ Motorsports."

To Whom It May Concern:

This letter is being written in regards to Miss Amanda Ferguson.

I have had the pleasure of knowing Amanda for the past 3 years. Within the past 3 years I have come on board as a primary sponsor for her racing efforts. I have over 30 years experience in motorsports as a driver, owner and sponsor. With this experience, I feel more than qualified to write this letter.

Webster defines the word "Professional" as one who is characterized by or conforming to the highest technical or ethical standards of a profession. This definition exemplifies Miss Ferguson's personal character and the way she conducts herself within and outside the racing environment. Her ability to transition from a professional racecar driver while competing in a race to a polished company spokesperson after a race is unequalled to any driver I have sponsored.

A sponsored driver is a direct reflection of the image that my company is trying to project. During her numerous speaking engagements and interviews, Amanda demonstrates an exceptional mastery of professional communication skills. In short, Amanda always thinks before she speaks and remains in solid control of any conversation even during high pressure situations. Amanda Ferguson is a positive reinforcement role model for my company and exceeds expectations for our company's advertising dollar.

Competitive, motivated, articulate, driven and ambitious are but a few words to describe Amanda. The list goes on and on. At the age of 16, this young lady has risen to a talent and ethical level behind the wheel of a racecar that veteran drivers strive for their entire racing career. Couple her extraordinary racing talent with her high standards of professional conduct and add in a 4.3 GPA in high school and you have solved the formula for "winning".

In closing, if your company is looking to sponsor one who conducts herself as an "Elite Professional", showcase your company name by presenting a positive role model image while maximizing your marketing revenue, I strongly advise and highly recommend joining Amanda Ferguson's motorsports career and being part of something really special.

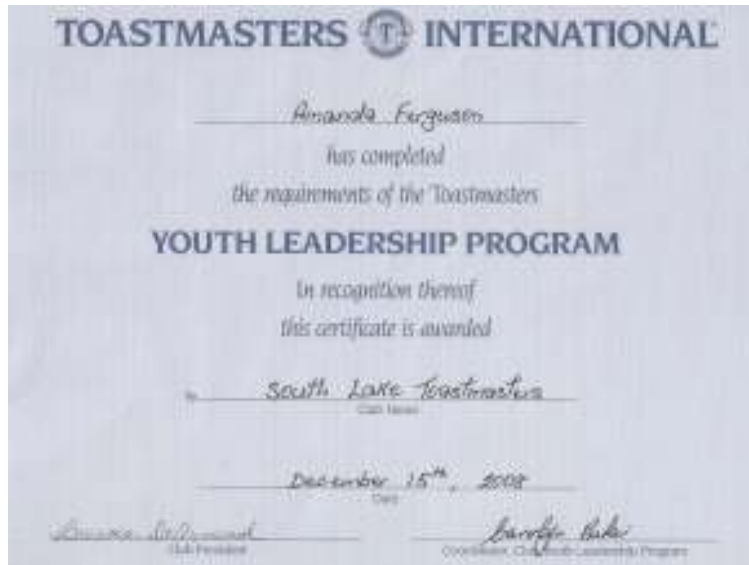

Please feel free to contact me anytime in regards to this letter. My number is (305) 278-0012.

Thank you,

Richard A. Gabor
President
Eagle Jet International, Inc.
